## EZ-LINK™ Mobile APP

Watlow's new EZ-LINK™ mobile app allows users to easily set up, monitor and adjust Watlow® EZ-ZONE® PM controllers via Bluetooth® wireless technology. The app is available free-of-charge from the app stores for phones and tablets, and provides access to the controller's parameters with fully spelled out names in plain text with help topics that explain each parameter and option.

When connected to a controller, the app's dashboard view displays up to 20 parameters. Users can configure which parameters appear on the dashboard view with the controller's custom home page. The all parameters feature in the app allows users set up the controller's inputs, control settings, alarms, outputs and other features and functions.

In addition to controller setup, monitoring and adjusting, the EZ-LINK mobile app provides many benefits to the user including password protection, alarm and error indicators, connection to Watlow for feedback and support and accessing device information such as firmware version, part number and serial number.

The app works with all 1/16 DIN EZ-ZONE PM controllers and limits with Bluetooth® wireless technology. This option is approved for use in the U.S., Canada, Japan and the European Union, with more locations coming soon.

### Features and Benefits

#### Remote access

- Connect to controllers up to 70 feet (21.3 meters away)

#### Ping feature

- Identifies which controller is connected when several controllers are within range

#### Password security

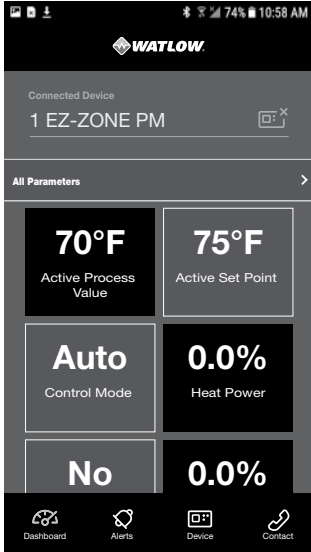

- Limits unauthorized access and unwanted changes

#### Controller naming

- Allows user to name the controller and easily find it again the next time

## EZ-LINK™ Mobile APP

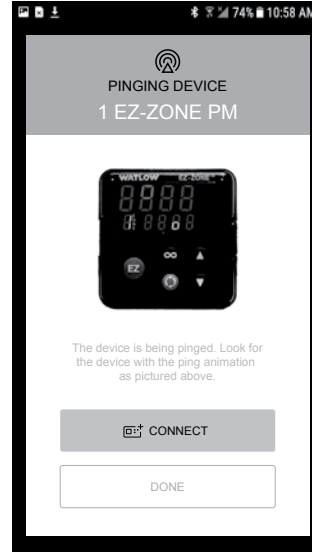

### Illustrated Features

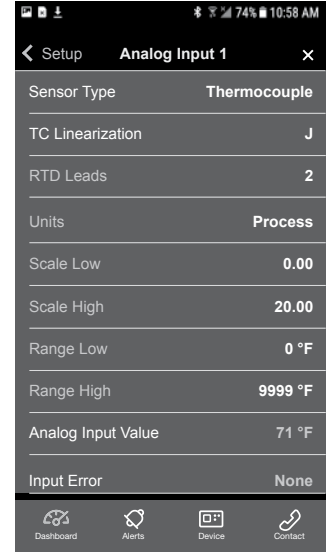

Provides access to controller's home page parameters

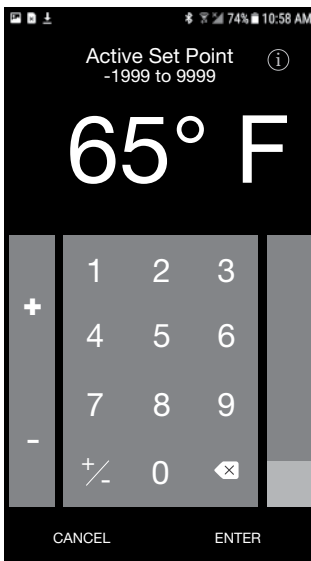

Decodes alarms, errors and messages

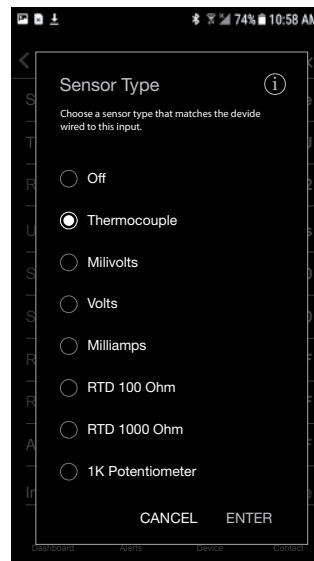

Pings controller display making it clear which controller is connected

Makes setting up controllers easy with readable text...

...intuitive operation

...and help for each parameter

### Compatibility

The EZ-LINK mobile application is compatible with all 1/16 DIN EZ-ZONE PM controllers and limits that have the Bluetooth® communications option.

### System Requirements

#### Android™

- Compatible versions: 5, 6, 7 and 8

#### Apple®

- Compatible versions: 10 and 11

#### Supported devices

- Designed for phones, compatible with tablets

# Software

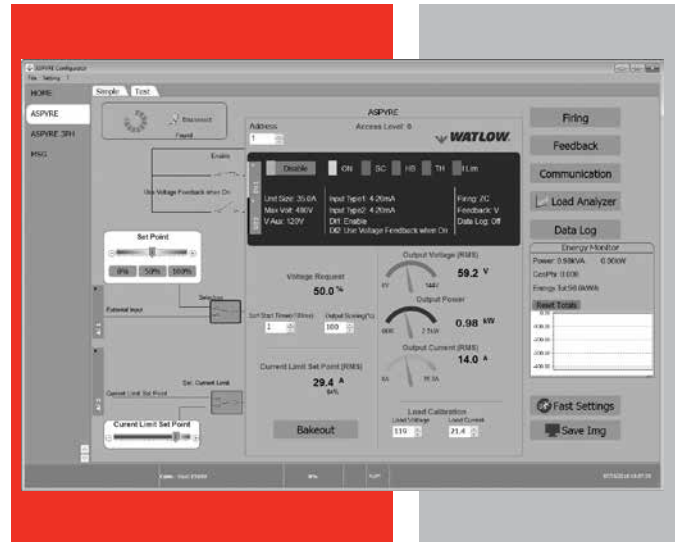

## ASPYRE® Configurator Software

ASPYRE® Configurator is Watlow's new, easy-to-use software for configuring and customizing ASPYRE power controllers. Use it to optimize Watlow's ASPYRE products for specific applications. Task-specific views simplify all aspects of commissioning new controllers including configuring the use of digital and analog inputs, setting options such as maximum voltage and maximum current, setting up features including feedback, firing mode and communication options and uploading, saving and downloading recipe files that include the complete configuration of a power controller.

ASPYRE Configurator software is included on the "Watlow Support Tools" DVD and available for download at [www.watlow.com](http://www.watlow.com).

### System Requirements

- **Microprocessor:** 1 gigahertz (GHz) or faster, 32-bit or 64-bit
- **Memory:** 1 gigabyte (GB) RAM (32-bit) or 2 GB RAM (64-bit)
- **Disk Space:** 250 megabytes (MB)
- **Video:** 1400 x 1050 or higher
- **Operating System:** Microsoft® Windows® 10, 8.1 or 7
- **Port for controller communications:** USB 1.0 or EIA-485 half duplex (2-wire)

## COMPOSER® With INTUITION®

COMPOSER® with INTUITION® is Watlow's new, easy-to-use software for configuring and customizing controllers. Use it to optimize Watlow's F4T, D4T and EZ-ZONE® PM and RM controllers for specific applications. Task-specific views simplify all aspects of commissioning new controllers including managing the inputs and outputs from pluggable flex modules, setting up functions such as control loops and alarms and creating and editing profiles. COMPOSER software is included on the "Watlow Support Tools" DVD and available for download at [www.watlow.com](http://www.watlow.com).

### Features and Benefits

#### Function block diagram with live data and error indication

- Enables application-specific configuration of controllers
- Depicts the configuration visually making it easy to understand and explain to others
- Speeds up application testing and troubleshooting

#### Multi-language support

- Prevents errors by communicating with users in their own languages

#### System image files contain complete configuration

- Makes it fast and easy to duplicate settings from one system to another
- Simplifies sending configurations to remote sites
- Provides backup of settings to restore if settings are changed or controller is replaced

#### Dashboard view

- Makes it easy to connect to controllers
- Clearly indicates when there are configuration errors that need to be addressed
- Allows downloading configuration files without allowing access to setup and configuration views

#### Opens and displays saved configuration image files

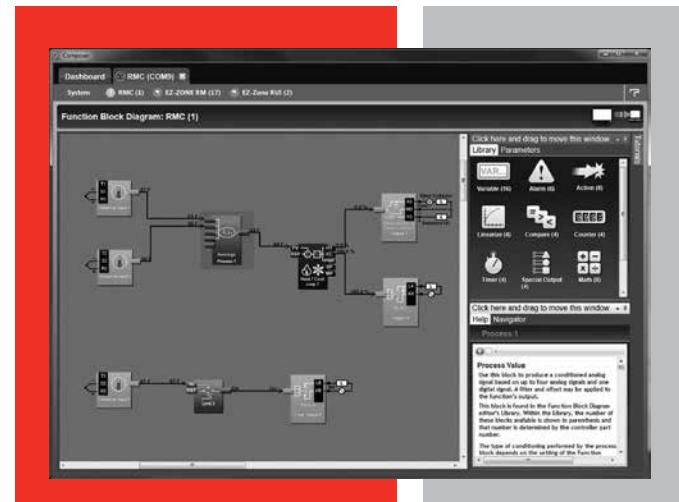

- Simplifies supporting remote users
- Makes it easy to inspect configuration files

#### Configurable interface

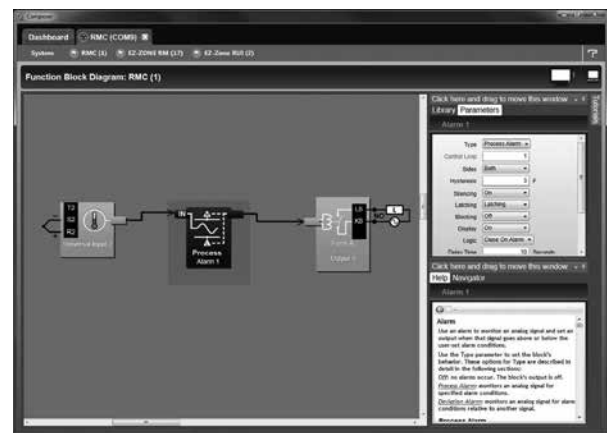

- Lets users adjust window sizes and positions to work efficiently

#### Integrated video tutorials and help

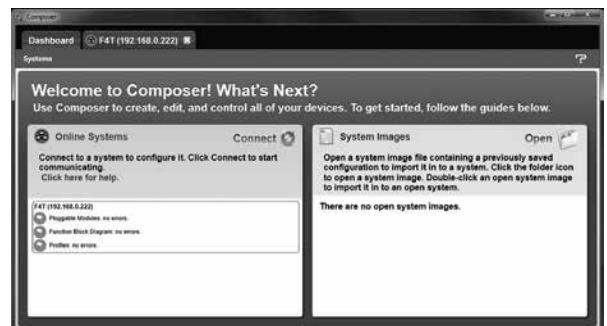

- Speed up commissioning by demonstrating configuration steps
- Simplifies access to function block and parameter descriptions
- Reduces configuration errors
- Helps the user take full advantage of available features

Illustrations from COMPOSER

Function block diagram makes it easy to visualize application solutions.

Dashboard makes it easy to connect, indicates configuration errors and allows downloading configuration files without allowing access to setup.

## COMPOSER With INTUITION

### Technical Data

#### Additional Features and Benefits for F4T

##### Profile editor

- Speeds up profile creation and editing
- Allows maintenance of profile list in controllers from a remote PC
- Makes it easy to move profiles from one controller to another
- Exports profiles to PC files for backup and portability

##### Fast, reliable Ethernet support

- Easily connects to one or more controllers
- Minimizes time to read and write configuration settings

##### Pluggable flex module management

- Simplifies configuration by clearly indicating which hardware is present
- Shortens commissioning by allowing user to configure controller for flex modules prior to installing them

##### Security configuration

- Allows OEMs and supervisors to limit permissions to specific features
- Controls access via COMPOSER and controller
- Prevents errors and reduces downtime by preventing undesired configuration changes

##### Calibration view with on-screen instructions and automation

- Reduces downtime by simplifying the calibration verification procedure

## Specifications

### Supported Products

Product	Minimum Version
F4T with INTUITION	2.0
D4T with INTUITION	3
EZ-ZONE PM	15
EZ-ZONE RM: RMC, RME, RMS, RMH, RML	9
EZ-ZONE RM: RMA	5
EZ-ZONE RUI	6

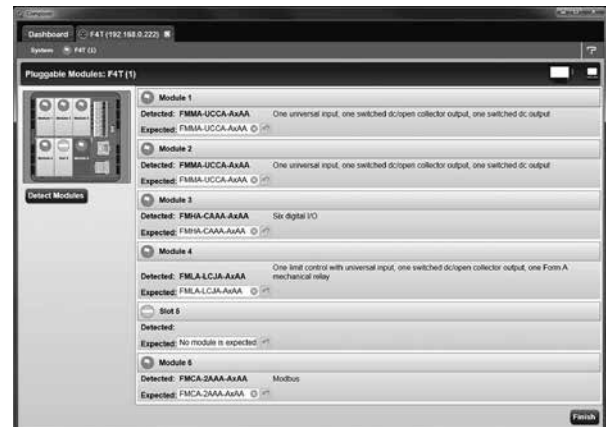

### Compatible Operating Systems

- Windows® 10
- Windows® 8.1
- Windows® 7

### Minimum System Requirements

- Microprocessor: 1 gigahertz (GHz) or faster 32-bit or 64-bit
- Memory: 1 gigabyte (GB) RAM (32-bit) or 2 GB RAM (64-bit)
- Disk space: 250 megabytes (MB)
- Video: 1280 x 720 or higher
- Port for controller communications: Ethernet for F4T or EIA-485 half duplex (2-wire) for EZ-ZONE RM and PM

### Illustrations from COMPOSER for F4T

Pluggable modules view simplifies configuration by showing hardware present.

Profile editor speeds up creating and editing profiles.

## EZ-ZONE® Configurator

EZ-ZONE® Configurator software allows Watlow® EZ-ZONE products to be configured in one simple process. Its interface is flexible and easier to read than the basic remote user interface (RUI). It operates without requiring purchase of communications options as it uses the standard bus communications protocol that is included with all EZ-ZONE products.

The EZ-ZONE Configurator software is available as a free download at [www.watlow.com](http://www.watlow.com).

### Features and Benefits

#### Communicates with EZ-ZONE products via standard bus protocol

- Works regardless of which communications option is purchased or even when no communication option is purchased

#### Detects EZ-ZONE devices and reads up configuration

- Allows easy access to any setting

#### Presents pages and menus as they are in the controller's display, RUI and manuals

- Enables the user to easily locate what they are looking for

#### Wizard-style editor with menu explorer

- Allows for easy examination of each menu
- Enables the user to skip directly to the parameters they want to work with

#### On-screen parameter help

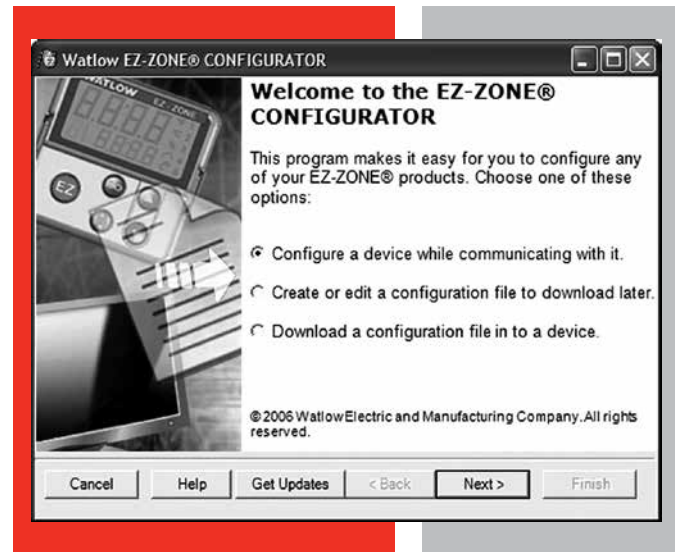

- Reduces configuration errors
- Helps the user take full advantage of available features

#### Copies parameter settings

- Decreases configuration time especially for multi-loop controllers

#### Saves configuration files on the computer with all the information required to set up a controller

- Preserves settings to archive and recover or simplify setting up of another EZ-ZONE product
- Enables set up files to be emailed or accessed by users on a network or via the Internet

#### View or modify configuration files saved during online editing sessions

- Allows users to get a jump on setting up EZ-ZONE products
- Aids in supporting remote users

#### Downloads saved configuration files

- Simplifies configuration of EZ-ZONE products

#### Flexible and smart compatibility checking

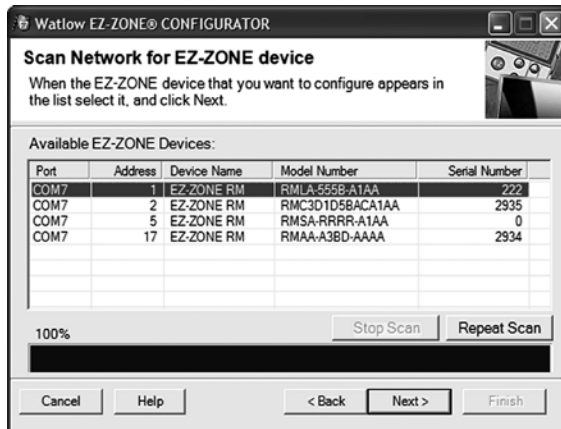

- Ensures configuration files are only loaded into devices that are similar enough to the original that the settings make sense

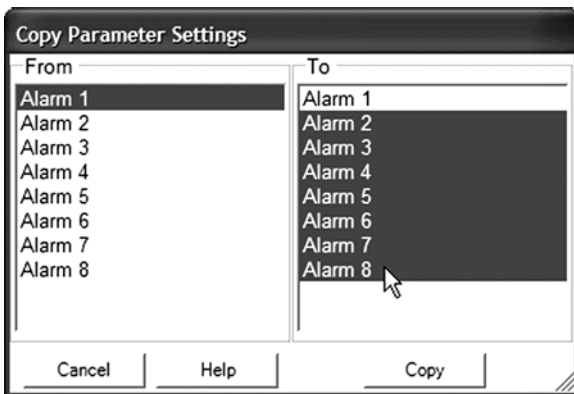

## EZ-ZONE Configurator

### Technical Data

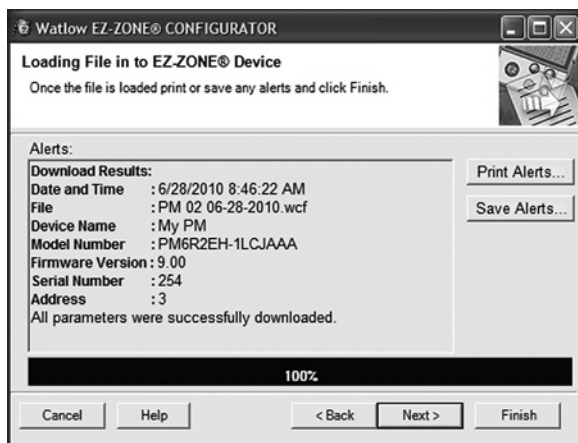

### Illustrated Features

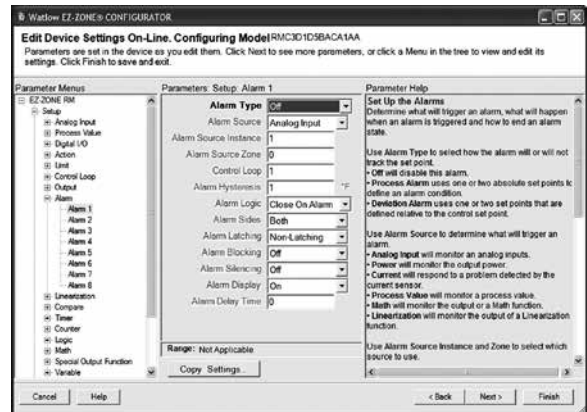

Detects EZ-ZONE devices connected to the computer's communications ports.

Copy feature speeds up configuration.

Confirms that parameter downloads were successful and reports exceptions.

Menu explorer allows users to skip directly to desired parameter or browse each setting.

### Compatibility

EZ-ZONE Configurator is compatible with all versions of EZ-ZONE products, but can be used to download configuration files only to products meeting the requirements listed below.

Product	Minimum Firmware Version
EZ-ZONE RUI	3.0
EZ-ZONE ST	4.0*
EZ-ZONE PM	7.0
EZ-ZONE PM Express	1.0
EZ-ZONE RM Control Module	1.0
EZ-ZONE RM Expansion Module	1.0
EZ-ZONE RM Access Module	1.0
EZ-ZONE RM High-Density Control Module	5.0
EZ-ZONE RM High-Density Limit Module	5.0
EZ-ZONE RM High-Density Scanner Module	5.0

\*Configuration files may be downloaded to EZ-ZONE ST controllers originally purchased with revision 4.0 or later only.

### System Requirements

#### Minimum Requirements

- 485 communications port: USB port and USB-to-485 converter, or serial COM port (232) and 232-to-485 converter
- Microprocessor: Pentium® IV or equivalent
- Memory: 128 MB RAM (256 MB recommended)
- Disk space: 140 MB (100 MB if Microsoft.NET Framework is already installed.)
- Video: 800 x 600 (1024 x 768 or higher recommended)

#### Operating System Requirements

- Windows® 10
- Windows® 8.1
- Windows® 7

## EZ-ZONE LabVIEW™ Driver

This instrument driver for National Instruments' LabVIEW™ software communicates with Watlow's EZ-ZONE products via the standard bus communications protocol that is included with all EZ-ZONE products.

The LabVIEW™ instrument driver software package, created with LabVIEW™, simplifies development of applications such as test software. These instrument drivers include software functions called LabVIEW™ Virtual Instruments (VIs) that are used with LabVIEW™ to communicate with Watlow products such as the EZ-ZONE PM.

The EZ-ZONE LabVIEW™ instrument driver software is available as a free download from [www.watlow.com](http://www.watlow.com).

### Features and Benefits

#### Supports access to all EZ-ZONE parameters

- Makes it easy for LabVIEW™ users to use EZ-ZONE products with their programs

#### Compatible with any EZ-ZONE product configured to communicate via standard bus

- Reduces cost by eliminating the need to purchase optional communications protocols

#### Features Initialize, Read, Write and Close VIs

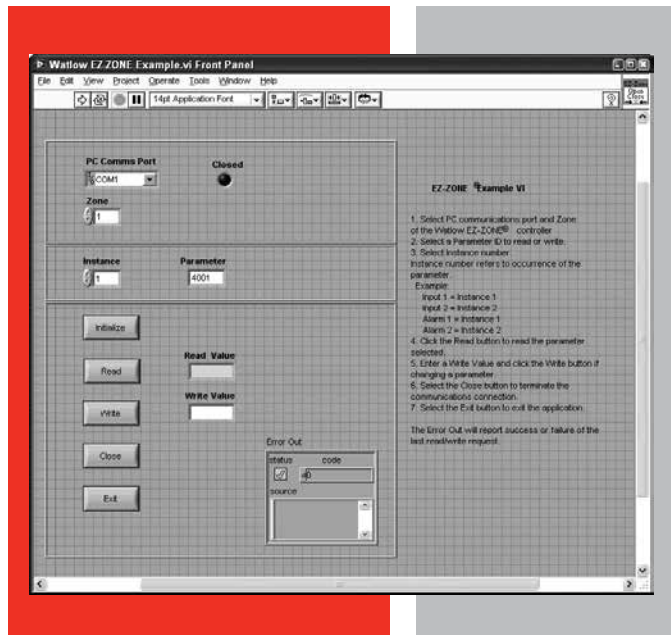

- Speeds development of LabVIEW™ applications

#### Includes a working example with detailed instructions

- Shortens the learning curve associated with applying a new instrument

### Compatibility

The Watlow EZ-ZONE instrument driver is supported by LabVIEW™ versions 8.6 and later.

## EZ-ZONE GSD Editor

The EZ-ZONE GSD Editor software allows users to create custom general station description (GSD) files for configuring communications between EZ-ZONE products and other automation equipment supporting the PROFIBUS DP communications protocol.

The EZ-ZONE GSD software is available for download free of charge at [www.watlow.com](http://www.watlow.com) and on the Controller Support Tools DVD-ROM (part number 0601-0001-0000) included with the related Watlow controllers.

### Features and Benefits

#### Creates and edits GSD files

- Enables configuration of DP-V0 (cyclic) communication between EZ-ZONE devices and a PROFIBUS DP master such as a programmable logic controller (PLC)

#### Allows users to select just the values they need

- Optimizes PLC memory use by allowing cyclical messages to be configured with desired data only
- Speeds up network by eliminating the transmission of unnecessary data as with fixed, vendor-supplied GSD files

#### Supports EZ-ZONE PM, RM Access Modules and RUI Gateways

- Makes it easy for PROFIBUS DP users to use EZ-ZONE products in their applications

#### Presents all the parameters found in supported EZ-ZONE device's menus

- Maximizes flexibility in the design of applications

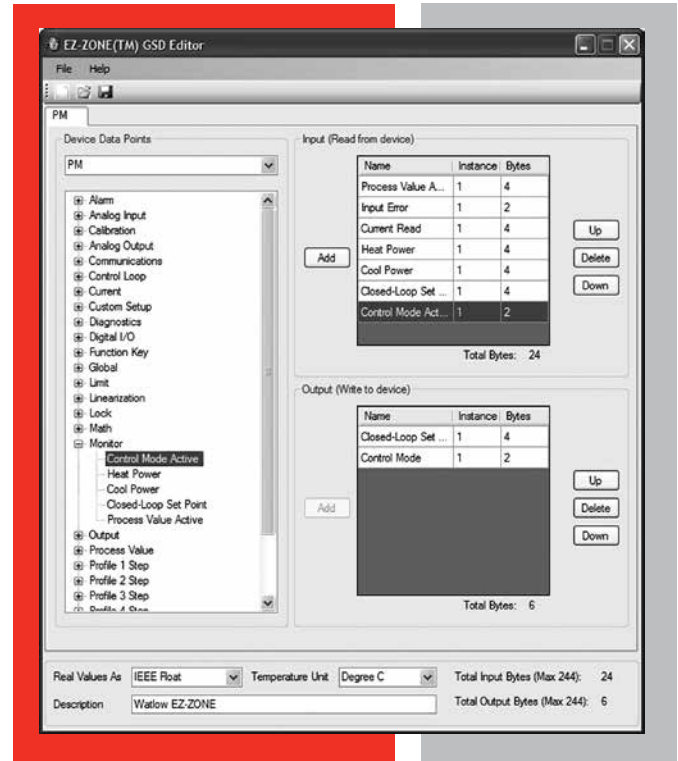

### System Requirements

#### System Requirements:

- Microprocessor: Pentium® IV or equivalent
- Memory: 128 MB RAM (256 MB recommended)
- Disk space: 140 MB (100 MB if Microsoft.NET Framework is already installed.)
- Video: 1024 x 768 or higher
- Microsoft® compatible pointing device (mouse or trackball)

#### Operating System Recommended:

- Windows® 8
- Windows® 7

### Compatibility

EZ-ZONE GSD Editor software can be used to create and edit GSD files for EZ-ZONE PM controllers with the PROFIBUS DP field communications option and EZ-ZONE ST and PM controllers and RM control systems when connected to an EZ-ZONE RM access module or EZ-ZONE RUI gateway with the PROFIBUS DP option.

# Software

## EHG<sup>®</sup> SL10 Software

The EHG<sup>®</sup> SL10 software allows the user to configure, monitor, log and chart data from Watlow's EHG SL10 integrated multi-function controllers. It provides an easy-to-use and centralized interface for multiple EHG SL10 controllers.

This software gives the user the ability to change set points, label devices and much more all with the click of a key.

The EHG SL10 software is available for download free of charge at [www.watlow.com](http://www.watlow.com) and on the Controller Support Tools DVD-ROM (part number 0601-0001-0000) included with the related Watlow controllers.

### Features and Benefits

#### Automatic network detection and configuration

- Simplifies configuring multi-device networks by setting unique addresses in each device as they are added to the network
- Scans for new controllers added to the network

#### Manual network configuration

- Connects to and monitors existing controller networks

#### User definable device names

- Speeds up troubleshooting by allowing users to set names for networked controllers that correlate them with heater locations

#### Monitor mode

- Displays temperature, and color coded alarms and warnings for all networked controllers
- Centralizes monitor function and eliminates time spent checking alarm states at the heater

#### Network state indicator

- Simplifies and reduces errors when controlling many points
- Shows at a glance if any controller has a warning or alarm condition

#### Charting

- Improves system operation by allowing engineers and operators to see zone temperature trends in real time

#### Data logging

- Saves time and effort by eliminating the need to manually record temperatures
- Simplifies troubleshooting by providing a record of zone temperatures

#### Configure mode

- Simplifies and speeds up changing set points and other control parameters

#### Password protected setup

- Prevents unauthorized changes to alarm set points, tuning and control settings

#### Recipe manager

- Speeds up commissioning new devices by allowing saved recipes to be downloaded to multiple controllers
- Reduces data entry errors by saving known good settings

#### Ping function blinks indicator on selected controller

- Reduces errors by allowing technicians to confirm device identities

### Compatibility

EHG SL10 software can be used to configure EHG SL10 controllers when run on a computer connected to the controllers via an EIA-485 (also known as RS-485) network. For most computers a 485 converter is required.

### System Requirements

#### Operating System

- Windows<sup>®</sup> XP Professional

## SpecView HMI Software

SpecView software from Watlow® is an easy-to-use Human Machine Interface (HMI) to Watlow controllers, including the F4T with INTUITION process controller and EZ-ZONE controllers as well as third-party products. Watlow's single point of support for hardware, software and application needs ensures knowledgeable and expedient responses to questions or concerns.

This competitively priced package includes field-proven features, many suggested by loyal users. Built-in support and auto-detect for Watlow controllers make setup quick and simple. SpecView from Watlow is ideal for industrial applications with support for barcode readers and touch-screen operation.

To try before purchasing, download SpecView from the Watlow website and run in the time-limited demo mode.

### Features and Benefits

#### Built-in support and auto-detect for controllers

- Saves set-up time
- Eliminates the need to learn communications protocols
- Integrates devices from multiple vendors

#### Watlow EZ-ZONE standard bus communications protocol

- Communicates with any EZ-ZONE product without requiring purchase of a communications option

#### Highly configurable trending/graphing

- Simplifies monitoring and troubleshooting processes and machines
- Provides a permanent, unalterable record of results

#### Flexible data logging and report generator

- Helps users comply with regulatory requirements including AMS 2750D NADCAP
- Reduces labor and increases accuracy by automating data collection
- Simplifies record keeping by consolidating measurements, operator comments and other information into Excel® - compatible report formats
- Allows data to be grouped in user-defined batches
- Records operator actions

#### Easy-to-build, customizable screens

- Allows creation of application-specific screens, which can automate tasks, decrease training time and simplify monitoring and operation
- Highlights specific parameter values with user-set color dynamics and provides bar graphs for "at-a-glance" monitoring
- Limits access with passwords if desired

#### Easy-to-use recipe manager

- Saves snapshot of current parameter settings
- Eliminates operator error when setting machine parameters
- Reviews and edits complex programmer profiles

#### Historical replay option

- Helps troubleshoot processes by allowing review of recorded data

#### Remote access option

- Allows multiple, identical operator stations for convenient access
- Reduces downtime and increases utilization with monitoring and access over LAN, modem or Internet

**For detailed product and ordering information, see the full SpecView HMI Software product section located on pages 361 through 365.**

# Software

## EZwarePlus

The Silver Series EM programming software, EZwarePlus, is easy to use and features a large variety of built-in screen objects that make it powerful. When creating screens, the user can call upon extensive graphics libraries, import custom graphics and add numeric displays, entry fields, analog meters, bar graphs and trend graphs with just a few mouse clicks. Screen objects are highly customizable, and the user can create libraries of their own objects for repeat use. The online simulator, Ethernet and USB support, make testing and downloading fast.

The EZwarePlus software suite is available for download free of charge at [www.watlow.com](http://www.watlow.com) and on the Controller Support Tools DVD-ROM (part number 0601-0001-0000) included with the related Watlow controllers.

### Features and Benefits

#### Powerful, easy-to-use EZwarePlus programming software

- Requires only a small investment in time to create a useful interface
- Provides the ability to learn additional features as needed
- Provides advanced interface features such as animation and pop-up windows
- Reduces development time by providing extensive graphical libraries and facilitating reuse with user-created libraries

#### Offline and online simulation

- Speeds up development by making it faster and easier to test projects
- Allows faster creation of fine-tuned interfaces by speeding up iterations

#### Upload and download password protection

- Prevents users from altering projects
- Protects projects in OITs from accidental overwrite

#### Extensive graphical libraries and user-created libraries

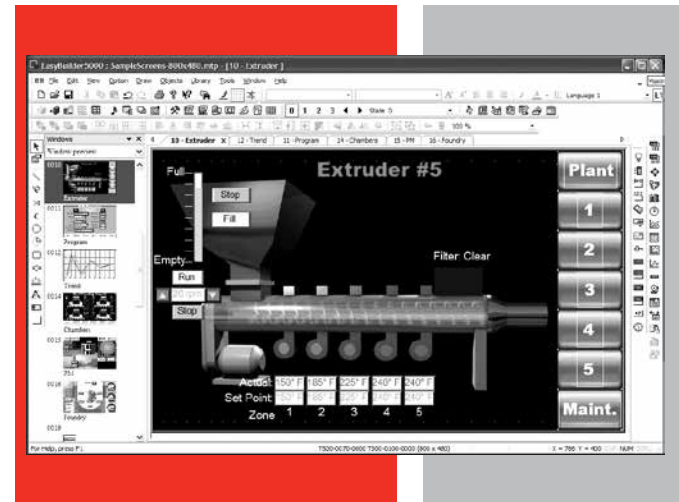

- Reduces development time and facilitates reuse
- Simplifies development by allowing import of common graphic formats: bitmaps, JPEGs and animated GIFs

#### Project manager

- Simplifies managing projects for multiple applications

#### Project compress/uncompress

- Archives all necessary files in one compressed file
- Allows a single file to be saved or delivered as the project source

#### User-programmable macros with math functions and support for floating point

- Extends functionality
- Automates processes

#### TrueType fonts with Unicode (international) characters and language switching feature

- Makes screen content easy to read by allowing formatting such as bold, italics, underline, scrolling and blinking
- Prevents errors by communicating with users in their native languages
- Reduces development and support by allowing inclusion of up to 24 user-selectable languages in a project

#### Tag library and address find and replace function

- Simplifies project reuse with similar but not identical controllers

#### Label library

- Speeds up screen development by eliminating the need to enter the same text multiple times
- Enables on-the-fly language changes for up to 24 languages per project

#### Library import and export functions

- Reduces errors and speeds up development by eliminating tedious data entry when multiple projects interface with the same devices

#### Layers, grid, alignment, nudge, space-even and make-same-size tools

- Speeds up creation of smart looking screens by automatically placing objects aligned on the screen
- Gives user precise control over object placement

# Software

## EZwarePlus

### Software Suite

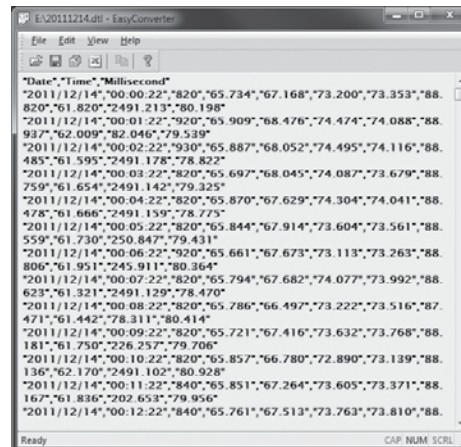

The EZwarePlus software suite includes EasyConverter, EZwarePlus screen editor, Utility Manager and Recipe Editor programs.

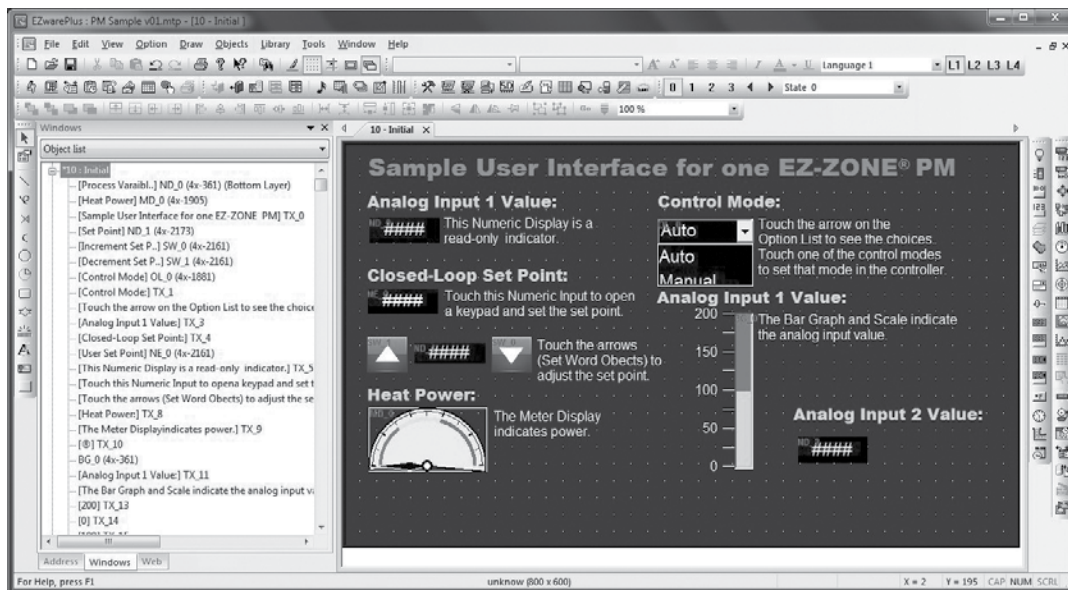

Utility Manager uploads and downloads projects to and from the Silver Series EM <sup>o</sup>, opens compiled projects in simulation and launches the other EZwarePlus programs.

The Recipe Editor configures memory files for use with Silver Series EM OITs and allows offline creation of recipes.

EasyConverter converts log files saved by the Silver Series EM OIT to file formats used by popular Windows<sup>®</sup> software such as Microsoft<sup>®</sup> Excel<sup>®</sup>.

EZwarePlus provides a graphical screen designing environment with point-and-click access to features and drag-and-drop ease.

### Compatibility

EZwarePlus software can be used to configure Silver Series EM operator interface terminals as interfaces for Watlow EZ-ZONE controllers and other automation devices.

**Note:** EZware-5000 is still available for programming older Silver Series OITs.

### System Requirements

#### Operating System

- Windows<sup>®</sup> 10, 8.1 or 7
